

# Encore FR20DTW white

Code: 1237000209

Part of the Encore stage lighting series, the Encore FR20 DTW white lighting fixture is equipped with a 2-inch Fresnel lens and powered by a 17W warm white LED engine.

It produces a soft-edged beam for stage, theatre and commercial use at 3000K.

It comes with barn doors to adjust the beam dispersion and a manual knob to change the dimming from 100% to 0% with a dim to warm feature.

It is also Triac dimmable - compatible with ADJ dimmer packs or standard wall dimmers.

The Encore FR20 DTW white comes equipped with a hanging bracket, barn doors to manually shape the beam of light and a additional lens filter to change the beam angle from 19-degrees to 45-degrees.
