

How to initialize the Element ST HEX product

After updating the software, replacing the main PCB or battery.

You must initialize the unit, otherwise the unit battery life will be inaccurate in future use.

The procedure is as below:

1. Enter the Menu
2. PERSONALITY
3. Submenu: Service
4. Passcode = 011
5. Factory Restore: YES

The unit has now initialized successfully. You can now recharge your battery.
