AVANTE

A12X

The **Avante Audio A12X** part of the Achromic series, is a 12-inch, 2-way active loudspeaker designed for delivering exceptional audio quality for all your events. This powerful loudspeaker packs a punch with an impressive 1200W peak power, consisting of 350W Class D (LF) and 50W Class AB (HF) RMS, and a frequency range of 60hz-20kHz.

Built-in with digital signal processing (DSP), the A12X features an easy-to-use LCD screen and multiple presets to customize your audio output. With the selectable time-out function, you can save energy and extend the lifespan of your speakers by setting an auto shut-off timer.

The A12X is compatible with the Achromic X iOS APP, which lets you remotely control your speaker settings from your iPhone or iPad, giving you the convenience of adjusting your audio from a distance. Its Bluetooth® 5.0 audio connection enables wireless connection of the Achromic X APP or streaming of music from your smartphone, tablet, or laptop.

The A12X is built for durability and portability, with a H-PP molded enclosure and a 1.2mm steel grill. It also comes with two fly points on top and one on the back, a dual-position pole mount, and a top handle for easy transport.

With a peak SPL of 123dB and a nominal coverage of 90° x 60°, the A12X is perfect for small to midsize events. Its balanced female XLR ¼-inch combo jack and 2x RCA (phono) inputs provide you with the flexibility to connect to a variety of audio sources.

The A12X is made of durable high-tech plastic and weighs in at only 35 lbs. This light weight, versatile loudspeaker delivers exceptional audio quality, making it perfect for mobile entertainers and event producers or installations into bars, restaurants, lounges and small nightclubs.

ACHROMIC X iOS APP
