

AMERICAN AUDIO[®]

Radius 1000 and Native Instruments Traktor Pro Setup

In order to work with two Radius with Native Instruments Traktor Pro you need to do the following:

1. Load this file:
http://www.americandj.eu/images/media///manuals/manuals_e/radius%20dual%20setup.zip
2. Import it in Traktor
3. On your first player press and hold the folder button till "1. Jog Mode" appears in the display
4. Scroll down with the parameter knob till menu point A. MIDI CH
5. Press the Parameter Button once
6. Select CH 1->8 for the first player
7. Confirm with pressing the Parameter Button again
8. Do the steps 3-7 on your 2nd player, but select channel 9->16.
